# TVS likely to ride high on volume recovery

Robust exports and higher investment in EVs are key triggers

RAM PRASAD SAHU  
Mumbai, 30 July

TVS Motor Company's stock gained over 3 per cent on Friday, thanks to positive management commentary and brokerages' expectations of strong growth. After a subdued June quarter of financial year 2021-22 (Q1FY22), demand trends in July indicate that retail sales are moving towards Q4FY21 levels; volumes are expected to return to normal by September.

Among the triggers for the improvement in domestic demand would be positive rural sentiment on the back of normal monsoons and reservoir levels. Return of personal mobility in the urban segment, too, is expected to provide support. While volumes rose 146 per cent in Q1 over the low base of last year to around 657,000 units, they declined 29 per cent sequentially because of lockdowns in multiple states.

Demand improvement in foreign markets is another trigger as exports account for half of the firm's volumes. The improvement stems from the rally in crude oil and other commodities and increase in forex availability for importers in those markets. Even as domestic sales in Q1 were down 45 per cent on a sequential basis, exports were up 2 per cent, limiting the overall volume decline.

Among the major rating triggers is the company's ability to keep margins in double-digit territory on a sustainable basis. Margins in the June quarter were down by 310 basis points to 7 per cent on a sequential basis due to lower volumes and higher raw material costs.

Part of the raw material inflation was offset by price hikes, cost-cutting initiatives, and a favourable product mix. Despite these measures, there is still a 50-bps gap in costs. The company has, however, maintained that its

## EYEING MARGIN GAINS

## ROLLER-COASTER RIDE

margins will stay above 10 per cent once volumes rebound. The premiumisation trend and higher sales of Apache, Ntorq, and Jupiter ZS in local and export markets should support margin improvement. Price hikes, product mix helped the company post a 4.3 per cent increase in realisations on a sequential basis.

New product launches and development, especially in the electric vehicle (EV) space would be a medium-term trigger. The company has announced an investment of ₹1,000 crore in EVs for product development, capacity expansion, and distribution infrastructure.

The company plans to launch electric two- and three-wheelers. Its current portfolio comprises TVS iQube, which is available in six cities. It plans to expand to more cities by the end of the current year.

The company is the top pick in the two-wheeler space for analysts Vivek Kumar and Nitinn Aggarwala of JM Financial, because of its successful product track record, premiumisation in the industry, and improving profitability. The brokerage expects revenues and earnings to grow by 20 per cent and 56 per cent, respectively, over the FY21-23 period.

However, analysts at Motilal Oswal Research have lowered their target multiple to 18 times (x) from 20x earlier, as the company has the highest exposure to scooters with internal combustion engine technology and the segment accounts for 30 per cent of its volumes. This makes it the most at risk to EVs among listed players, they add. Investors should await an improvement in volumes and steady margin expansion before considering the stock.

# Plan to study abroad? Try Indian cover

If you buy student travel insurance here, ensure it meets the varsity's specifications

ABEER RAY

A student travel insurance policy is essential for Indians headed to foreign universities to pursue higher education. In fact, in countries like the US it is mandatory to have such cover.

Even if the university does not impose this condition, students must buy this cover for their own financial well-being. They will spend several years abroad, and the cost of medical treatment tends to be very high in the developed world. The pandemic has made it all the more essential to be adequately insured.

Indian students can buy such a policy either from an Indian insurer or a foreign firm approved by their university.

## Indian covers

An insurance policy purchased in India is likely to be cheaper than one purchased abroad. The policies offered by Indian insurers also cover many non-medical emergencies. "They offer 360-degree protection against problems like passport loss, baggage loss, etc," says Rakesh Goyal, director, Probus Insurance.

According to Adhil Shetty, chief executive officer (CEO) of BankBazaar.com, "An Indian student travel insurance policy comes with unique features like

## POINTS TO REMEMBER

- Insurers offer various plans, like basic, standard, silver, gold, platinum, etc
- These policies can have sub-limits for each item covered, so check if they are adequate in the plan you are buying
- Some insurers offer study interruption cover, which reimburses the current

semester's fee you may have already paid, if your study gets interrupted due to an illness

► You could also buy sponsor protection, which reimburses the tuition fee if the sponsor passes away

► Do check the policy wordings for complete clarity on pre-existing policies

auto renewal and policy extension facility."

These covers have a few shortcomings, though. "Most of them do not cover expenses

related to mental health treatment or pregnancy and childcare," says Shetty.

Several private insurers offer this cover. According to brokers, the premium would be around ₹9,000-15,000 for a cover of \$100,000 for a 20-plus youth headed to an American university.

## University-approved covers

University-approved insurers' policies have all the features stipulated by it. According to Raj Khosla, founder and managing director, MyMoneyMantra, "This makes it more convenient to buy a

university-facilitated policy." Some of them could also offer more comprehensive coverage than Indian policies.

On the flip side, they are likely to be costlier. They may also not offer continuous coverage: The period between two academic years may not be covered.

## Things you must check

If you decide to buy an Indian cover, you must check whether it meets your university's specifications.

The policy must also offer adequate and broad coverage. Says Khosla: "The amount of cover must be adequate for taking care of all medical costs. And the policy should cover you for hospitalisation, prescription medicines, private nurse, dental care, and accident and disability."

It should offer features like

assistance in repatriation (transporting mortal remains to India in case of demise) and should pay for return ticket of a family member in case he falls ill and requires someone to take care of him.

On the non-medical side, the policy must cover for loss of passport or luggage, flight cancellation or trip delay, and bail bond.

Check the clause regarding waiting period before coverage for pre-existing illnesses begins. Also familiarise yourself with the policy exclusions. Many countries enforce a quarantine on students when they arrive. "Our policy does not cover vaccination or hotel quarantine," says Sourabh Chatterjee, head-IT, web sales and travel, Bajaj Allianz General Insurance.

Most of these policies come with a deductible. If the deductible is \$100, it means that any bill up to this amount will have to be paid by the student. If the bill is larger, the insured will pay \$100 and the insurer the rest.

Finally, don't purchase this cover at the last moment. Says Khosla: "When you do so, you will make the purchase without properly understanding its features like what is covered, the exclusions, deductible, and so on." Take the time to compare the features and premiums of policies offered by various insurers before deciding on one.

# Sensex ends flat with negative bias; Nifty closes at 15,763

PRESS TRUST OF INDIA  
Mumbai, 30 July

The Sensex and Nifty closed modestly lower on Friday after investors offloaded banking, finance and metal stocks in the last hour of trade amid sluggish global cues. The 30-share BSE Sensex slipped 66.23 points or 0.13 per cent to close at 52,586.84, while the broader NSE Nifty

dipped 15.40 points or 0.10 per cent to 15,763.05.

The market remained range-bound for the most part of the session as investors kept their exposure lower due to weak global cues, traders said. The selling pressure was witnessed towards the flag-end when European markets opened in the negative zone, they added.

Bajaj Finance was the top loser in the Sensex pack, shedding 2.59

per cent, followed by Bajaj Finserv, SBI, Tata Steel, Titan, Asian Paints and Axis Bank. On the other hand, Sun Pharma topped the winners chart with a leap of 10.06 per cent after the drug major reported a net profit of ₹1,444.17 crore for the June quarter, compared to a net loss of ₹1,655.60 crore in the year-ago period.

Tech Mahindra, Power Grid, Bajaj Auto, HCL Tech, M&M and

NTPC were among the other gainers, spurring up to 7.24 per cent.

On a weekly basis, the Sensex fell 388.96 points or 0.73 per cent, while the Nifty shed 93 points or 0.58 per cent.

Taking support from pharma, fertilizer and auto stocks, the domestic market attempted to trade positively but failed to stick with the gains amid weak global trend.
